Cattle Receipts Light and
Market About Steady.

Hog receipts yesterday showed some improvement, but that did not make any change in the tendency of the market. The price seems to go down every day, without any regard to the supply. There were no fancy heavy hogs offered, but the average in quality was better than on Tuesday and the hogs that brought top price were pretty well finished and even. Cudahy took the bulk of the hogs; in fact, nearly all of them.

SAVE YOUR STOMACH

The condition of the stomach bears the same relation to one's health that the foundation does to the house. Without a good foundation, the house cannot stand. Without a good stomach, the health must fail.

Digestion will make and indigestion will break the health of the stomach. Perfect digestion will build and sustain, while poor digestion will tear down health's foundation. The reason for this is that the stomach must receive and prepare all food for entrance into the blood, and from the blood into the tissues. If the stomach is not in perfect condition, the nourishment will be improperly prepared, imperfectly digested, and instead of the health-giving and strength-increasing properties of the food being contributed to the tissues, stagnation ensues, the blood becomes impoverished and poison is forced into the system.

The weakest organ of the body gets most of this poison, because, for want of strength, it is less able to resist it, and as a consequence disease begins to show itself first in one of the weak organs, which is usually a very important one. It may be the lungs, liver, kidneys or heart, and in the case of women, it may be one of the organs peculiar to their sex. Such symptoms as shortness of breath, coated tongue, pains in the stomach, palpitation of the heart, fullness after eating, bowel complaint, dizziness in the mouth, yellow complexion, constipation, diarrhoea, dysentery, and sour belching are all symptoms of indigestion.

Kodol relieves every symptom of indigestion and restores the stomach and digestive organs to perfect health. This famous remedy has effected a permanent cure in thousands of cases of chronic dyspepsia, as well as ulceration of the stomach and other serious stomach diseases.

Kodol represents the natural juices of digestion as they exist in a healthy stomach, combined with tonic and reconstructive properties. It is absolutely harmless, perfectly palatable, never doing harm, always doing good.
